## Maid Marian

2022 ONE OUNCE SILVER BULLION COIN

Tales of courageous characters have long captured the British imagination; none more so than those of Robin Hood and his band of merry men, as well as the story's quick-witted and beautiful heroine Maid Marian. Proficient with a bow and arrow but also known to gather important information and relay it to Robin Hood, Maid Marian is much more than the object of Robin's desires that some may paint her as.

This bullion coin continues the series that began with Robin Hood, and will soon feature the loyal companion Little John on the third and final coin in the collection.

Maid Marian has been reimagined by Jody Clark, who also designed the Robin Hood 2021 bullion coin. Hidden amongst the greenery of Sherwood Forest, Maid Marian is depicted with a bow and a quiver of arrows on her back, patiently watching and ready to join the latest adventure. Jody Clark's definitive coinage portrait of Her Majesty The Queen also features on the obverse of the coin.

The Maid Marian 2022 bullion coin has been struck in one ounce of 999 fine silver to bullion standard, and is also available in a one ounce fine gold edition.
