

THE ROYAL MINT®
THE ORIGINAL MAKER

**STAR
WARS**

DARK SIDE BULLION MINTED BAR RANGE

The cultural impact of *Star Wars*™ over the last 50 years has been immeasurable, spawning a myriad of sequels, prequels, and spin-offs. A large part of that popularity can be attributed to the iconic characters that graced each film, not least the incredibly memorable villains. Now, for the first time, some of these legendary villains appear in a design that features on a newly minted bullion bar range from The Royal Mint as part of a two-part collection inspired by *Star Wars*.

An opulent tribute to one of the most successful franchises of all time, the *Star Wars* Dark Side Minted Bullion Bar Range features fine gold and silver editions of the bar that are each enhanced with special finishes. Blending British craftsmanship with the enduring appeal of the *Star Wars* galaxy, this new minted bullion bar design provides fans and investors alike with an opportunity to invest in precious metals with sophisticated pieces of memorabilia.

Each *Star Wars* Dark Side bullion bar depicts the likenesses of Darth Vader™, a stormtrooper™ and the legendary Death Star™ in comic book style illustrations, created from Lucasfilm's image library. Each bar also features the famous *Star Wars* logo alongside The Royal Mint's logo.

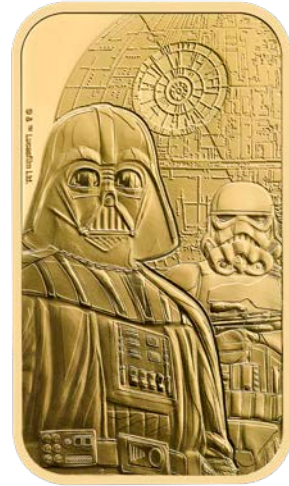

KEY FEATURES
