

The Royal Tudor Beasts

SEYMOUR UNICORN 2024 BULLION COIN RANGE

The Royal Tudor Beasts bullion coin collection takes inspiration from ten majestic beasts that line the approach to Hampton Court Palace. Originally commissioned to commemorate the marriage of Henry VIII and Jane Seymour, each stone sentinel is a testament to royal bloodlines, designed to fortify the ambitious House of Tudor.

Following the Yale of Beaufort and the Bull of Clarence, the fourth coin in the collection features the Seymour unicorn. Representing strength and purity, the heraldic Seymour unicorn was chosen to join the King's Beasts on the Moat Bridge with the intention to bless Jane Seymour with a son and heir for Henry VIII.

David Lawrence has created a dynamic reverse design for the Seymour Unicorn 2024 bullion coin, which is set against a chain mail surface animation background texture, which provides an additional security feature. The obverse features the official coinage portrait of His Majesty King Charles III by Martin Jennings.

Struck to bullion standard, this coin is available in fine gold, silver and platinum editions.
