

Britannia

ONE GRAMME GOLD
MINTED BULLION BAR

Created by the Romans almost 2,000 years ago, Britannia still endures as a poignant symbol of a proud and steadfast nation. She has inspired British prominence and progress throughout the centuries, weathering a changing economic, political and cultural climate as a long-lasting symbol of British fortitude.

Popularly known for ruling the waves, Britannia was first placed on Britain's coins by the Romans to emblemise the province. She has spanned millennia, appearing on the coins of every British monarch from Charles II through to Her Majesty The Queen. Now, the iconic image of Britannia features on a unique bullion bar range, which investors can secure to bolster and expand their portfolio.

Jody Clark's iconic portrayal of an unwavering and resolute Britannia graces the reverse of this gold bullion bar. Clutching her trident, with an air of resilience and pride, the depiction of Britannia is a fitting symbol of what the bars offer investors looking to add bullion to their portfolio – strength and security.
