# A Transatlantic Partnership

## INVEST IN TWO NATIONAL ICONS

We have partnered with the United States Mint for a bullion range honouring Britannia and Liberty in one unified design. Collaborating to create a coin design for the first time, Gordon Summers and Joseph Menna, the Chief Engravers of these mints, have created a binary design comprising two national symbols that represent a longstanding special relationship.

## A BINARY DESIGN

Inspired by the concept of court cards, Britannia and Liberty share equal prominence in this masterfully crafted design that represents the skill and experience of each Chief Engraver. The figures also represent fortitude and freedom, virtues that underpin the national identities of both the United Kingdom and the United States.

Designed by British sculptor Martin Jennings, each coin in the Britannia and Liberty 2024 bullion range features the official portrait of His Majesty The King.
